Delta Daylighting

Safety | Professionalism | Proficiency | Teamwork | Communication

Delta provides safe, precise, timely hydro-excavation services with superior production to energy, pipeline construction, infrastructure and industrial service companies in the Southwest, Southeast and Gulf Coast US.

Core Services

- Potholing
- Trenching
- Daylighting
- Line Location & Designation
- Tank Cleaning
- Pipeline & Subsurface Utility Excavation
- Backfill.

Hydro Excavation Truck Specifications	
Debris Capacity	13.5 CU YD
Water Capacity	2,120 GAL
Blower	6,400 SCFM
Water Pump Volume	20 GPM
Water Pump Pressure	3,000 PSI

Advantages of Delta Hydro Excavation:

- Excavation up to 100' deep
- Excavate 500' from the truck
- Excavate in confined spaces and congested areas
- Excavate where overhead restrictions exist
- Minimize ground disturbance
- Eliminate damage to subsurface infrastructure of all kinds
- Eliminate project delays resulting from damaged utilities

SAFETY

Delta Daylighting takes the health and safety of our Team and Customers seriously. Our crews are empowered to make safety based decisions when they observe hazards.
